

QUALITY POLICY

Atlaspantou Co Ltd is committed to achieving consistently high standards of service to our Customers and we firmly believe that quality improvements can best be achieved on the firm foundation of a quality system. It is therefore our intention:

1. To operate our business in accordance with Quality Management practices according to ISO 9001 and thus be able to ensure our Customers obtain the standard of service specified and, where possible, that their needs and expectations are exceeded.
2. To nominate certain members of staff and charge them with the continuous examination and improvement of our procedures for Quality Assurance in consultation with employees, clients, joint venture partners, designers, sub-contractors, suppliers and other stakeholders, as applicable.
3. To comply as a minimum with all contractual and other requirements.
4. To ensure that adequate resources are made available in all areas.
5. To charge Top Management with the task of establishing and reviewing policy, objectives, targets and Quality Management System on a regular basis.
6. To provide appropriate training to ensure that all employees develop an understanding of the importance of quality in their work, to accept the need to employ only those working practices which will assure the required standard of quality and to raise the overall competency levels of the workforce.
7. To ensure a timely response to complaints from stakeholders.
8. To bring the contents of this policy to the attention of all employees and make it available when requested to interested parties.

In order to achieve our Quality Policy we have set measurable objectives and improvement targets which will be reviewed systematically under our Management Review process.
