

Atlas Pantou joins forces with global construction companies, for the creation of Limassol Del Mar

Cypriot company **Atlas Pantou Co Ltd** joins a dynamic venture for the erection of luxury development **Limassol Del Mar**, in cooperation with respected companies from Italy and Lebanon, on behalf of Cypeir Properties Ltd.

Atlas Pantou group will be combining its eighty years of experience with world-class Lebanese company **MAN Enterprise** and with Italian-based **ICM Group** and **CMB Società Cooperativa**.

Atlas Pantou is a trailblazing local company which has established its reputation with a series of remarkable projects, considered benchmarks for Cypriot construction. Such projects are the currently tallest building in Cyprus, the Olympic Residence in Limassol, shopping center MyMall Limassol, the Limassol and Paralimni Seaside Pedestrian Walkways, the Columbia Beach Resort in Pissouri and the New Famagusta General Hospital.

The companies involved in this project have been selected on the basis of their professionalism, adherence to international standards and their expertise in vertical construction. They will be creating Limassol Del Mar, a model development taking shape on one of Limassol most attractive coastal areas.

The 28 floors high project will be a landmark for Limassol's sea front, as it is specially designed to fully

take advantage of its 170 meter wide sea front. Work has already begun following the signing of contracts on February 28th 2018 at the offices of the Limassol Del Mar consortium in Limassol. Part of the foundation and stacking work, as well as the basement, has already been completed. The first phase will be delivered in 2019 and the project will be completed by 2020.

Three internationally renowned companies will be adding their expertise to that of **Atlas Pantou**. Italian **CMB Società Cooperativa** recently completed the 44 floor Generali Tower in Milan. Lebanon based **MAN Enterprise** is known for landmark projects such as the 52 floor «Sama Beirut» skyscraper at the heart of the country's capital. Italian **ICM Group** has a long history of participating in high quality residential, commercial and public construction projects globally.

“We are certain that through our group's 80 years of experience and through our fruitful cooperation with the international companies taking part in this project, we will create a new landmark for both Limassol and Cyprus”, says the founder of the Atlas Pantou group of companies, Tonis P. Toumazis.

Atlas Pantou is joined in this project by Cypriot firms UDS architects Antoniades + Eleftheriou, UNEMEC ENGINEERS LTD, ASD HYPERSTATIC ENGINEERING DESIGN LTD and Christophorides Makris & Partners.
